Dental benefits give your employees more

Providing dental benefits for your employees is about much more than just a great smile. Good oral health is essential to good overall health – and comprehensive dental plans often include screenings for larger health problems, such as diabetes, hypertension and heart disease.

In addition to helping keep your employees healthy, dental benefits are a great way to showcase to your employees you value and support their priorities. A 2022 study found that U.S. adults and children are increasingly making oral healthcare a priority*. By offering robust and affordable dental plans, you can show you care – giving you a competitive advantage with employee recruitment and retention.

Value of Dental Insurance

Almost 9 in 10 (89%) adults agree that having dental coverage*:

- Gives them peace of mind.
- Provides relief from worrying about what they would do in a dental emergency.

U.S. adults and parents concur that*:

Helping your employees find quality dentists

In today's digital world, online ratings matter. Through our partnership with DentaQual, your employees can now see the ratings for our network dentists in Find Care, our online provider search tool.

Over 40 key performance measurements across five assessment categories are used to calculate each provider's score, including:

- 1 Treatment outcomes
- 2 Commitment to best practices
- 3 Cost-effectiveness
- 4 Patient retention
- 5 Treatment recommendations

Each provider rating will appear in the provider detail section of Find Care.

Benefits that get you more

Our dental plans focus on more than just oral health. We have programs in place to help your employees with their whole health.

Preventive first dental plans

Delta Dental is offering preventive first dental plans. Under these plans, preventive services do not apply to your annual maximum.

PREVENTIVE SERVICES MAY INCLUDE

Routine exams/X-rays

Regular cleanings

Periodontal maintenance

Health through Oral Wellness

When it comes to oral health, we know some people need more care than others. Delta Dental of Oregon's Health through Oral Wellness® program offers extra benefits to members who have greater risk for oral diseases.

The program uses a clinical oral health assessment to understand a member's risk of tooth decay, gum disease and oral cancer. Based on that risk score, members may qualify for additional cleanings, fluoride treatments, sealants and periodontal maintenance.

WITH EXTRA BENEFITS AND RELATED CARE, MEMBERS CAN

- Take charge of their oral health
- Prevent oral health issues before they happen
- Access resources to manage their oral health
- Learn how to achieve and maintain better oral wellness

Oral health, total health

Dental benefits that protect more than just your smile

Our Oral Health, Total Health program offers diabetic members more ways to care for their teeth and mouth — so they can keep the rest of their body healthy, too.

Having diabetes increases the risk of cavities, periodontal (gum) disease, tooth loss, dry mouth and infection. Members diagnosed with this disease are eligible for four prophylactic (preventive) cleanings or periodontal maintenance visits per year through our Oral Health, Total Health program.

Pregnant members who have periodontal (gum) disease are more likely to have a premature and underweight baby. Bacteria can enter the bloodstream through the mouth, and the body's response to the infection can trigger early labor. If they have already had two cleanings for the year, they will be eligible for another cleaning or checkup during their third trimester. This added preventive (prophylactic) visit is covered regardless of normal plan frequency limits.

Easy plan administration

We want to make it easy for you to
enroll and manage your account.

ENROLLMENT, MADE EASY
